## DESCRIPTION

Black, wrapped, flexible, industrial suction/pressure hose for air or water, with reinforcing steel helix. For use throughout industry especially the building and construction sector, shipyards, etc.

Suitable for use with DIN clamps.
Max. vacuum: 90\%.

Please contact Codan for further information.

ADDITIONAL INFORMATION

| Type no. | 2001 |
| :--- | :--- |
| Application | Air - water hose |
| Standard length | 40 metres |
| Working temp. | $-30^{\circ} \mathrm{C}$ to $80^{\circ} \mathrm{C}$ |
| Inside compound | SBR |
| Inside colour | Black |
| Reinforcement | Polyester with steel helix |
| Outside | SBR |
| compound | Black |
| Outside colour | - |
| Standards | - |

This hose specification sheet has been prepared with great care in order to provide you with all the information you need. The written advice must be obtained from Codan Rubber before using any hose with untested media or before using in applications not covered in the product data sheet. Codan Rubber recommends regular maintenance, care, and inspection of hoses before use. Hoses should be replaced if any physical damage is seen, especially to the cover of the hose or in the area around the couplings. All products must be stored in accordance with ISO 2230:2002 (Storage of vulcanized Rubber Products).
